***MINISTRY OF AGRICULTURE,  
FORESTRY AND FISHERIES***

AAD. Vol. Number 22

The Agricultural Statistical Digest, a publication of the Statistics Unit of the Ministry of Agriculture, Forestry and Fisheries, is designed to provide information on the agriculture and fishing industries in St. Lucia.

This edition presents data specifically for the period January to December 2004, and it also includes data for the historical period from 2000 – 2004.

The Statistics Unit would like to take this opportunity to thank all those who so willingly supplied the data within the Digest. We would also like to extend our gratitude to those who assisted by providing suggestions or criticisms regarding the improvement of this digest and/or future publications. This Ministry would also like to inform readers that the Agricultural Statistical Digest is posted on the Ministry of Agriculture, Forestry and Fisheries' website at <http://www.slumaffe.org>.

**The Agricultural Statistical Unit advises its readers to refer to the following notes before reviewing the tables. The notes are intended to offer clarity to the data as well as to acquaint readers with its sources.**

#### THE BANANA INDUSTRY

The figures published for banana production represent the total quantity of bananas purchased by the St. Lucia Banana Corporation (SLBC) from banana producers. However, since the privatization of the banana industry, the data is now being sourced from the Windward Island Banana Development Exporting Company Ltd. (WIBDECO).

The quantities of bananas purchased account for an estimated 90-95% of the island's total production, and are exclusively for exports mainly to the United Kingdom. Variations between the purchase and export figures are due to rejected fruit.

#### THE COCOA INDUSTRY

Data on cocoa beans are collected from the sole exporter of the crop – the St. Lucia Agriculturists' Association (SLAA). The SLAA also supplies cocoa beans to local private individuals for domestic and commercial purposes from time to time. Purchases of cocoa beans by SLAA represent an estimated 90% of the island's cocoa bean production. Cocoa bean exports are mainly to Europe—particularly to the United Kingdom—and the United States of America.

#### THE COCONUT INDUSTRY

Copra is produced from an estimated 85% of the island's total production of coconut and is purchased in bulk solely by the St. Lucia Coconut Growers Association (SLCGA). The SLCGA purchased the assets of the Copra Manufacturers Limited (CML). The SLCGA normally purchases all of the island's copra production for domestic use, and therefore, copra is not exported.

However, coconuts are exported in the green (water nuts) and dried forms. The early 1990's have witnessed an increasing demand for water nuts.

#### THE NON-TRADITIONAL CROP SECTOR

Presently, data concerning the quantities and prices of domestic agricultural produce are obtained from St. Lucia Marketing Board (SLMB) and leading supermarkets on a regular basis. The produce price is the price the farmer/producer is paid for his or her crop at the various market outlets.

THE FISHING INDUSTRY

These figures represent the estimated total amount of fish landed at the various fishing districts/landing sites. Fish landings are monitored daily at the various fishing districts by the Department of Fisheries of the Ministry of Agriculture Forestry and Fisheries. The fishing season extends from January to June, and there are approximately one thousand (1000) registered fishing vessels on the island.

An ongoing programme has been established for boat registration with the Fisheries Co-operatives. This is done on a voluntary basis by fishermen as is a prerequisite for receiving duty-free concessions such as rebate on fuel.

THE LIVESTOCK SECTOR

Table egg production data is sourced from an estimated 100 poultry farms island wide and are monitored on a monthly basis by the Livestock Division of the Ministry of Agriculture, Forestry and Fisheries. The table egg production data does not include figures for backyard production or subsistence farming.

AGRICULTURAL FINANCING

These figures are obtained from the Bank of St. Lucia (BOSL), formerly the National Commercial Bank of Saint Lucia. They relate to the number of loan applications that the BOSL has approved during each respective year, and the funding of these loans is facilitated by the Caribbean Development Bank (CDB). It should be noted that not all the funds were disbursed by the BOSL in the same year that the loans were approved.

THE TRADE BALANCE ON FOOD

The data in this section illustrates agricultural trade in non-traditional crops as well as fresh produce. Also presented in this section is the trade balance on food.
